Soft Skills:

Self-learning and information research skills

Education

Ho Chi Minh City University of Technology and Education

2022 - 2026

Information Technology / Software Engineering

GPA: 3.37 / 4

About Me

As a Software Engineering student, I am seeking a Front-End Intern position to apply my knowledge and enhance my skills in building web interfaces using HTML, CSS, JavaScript, and React. I aim to become a Full-Stack Developer, so I am eager to gain exposure to Back-End technologies and real-world software development processes.

Projects

Jewelry E-commerce Website

Team size: 4 - Role: Team Member

2/2025 - 5/2025

Description:

- Built a jewelry e-commerce site with admin tools to manage products, orders, and users.
- Designed and implemented a responsive customer UI using Figma and ReactJS.
- Created a full-featured admin dashboard with CRUD and user role management.
- Developed RESTful APIs with Spring Boot to handle business logic and data.
- Used Git and GitHub for version control and team collaboration.

- Back-end: <https://github.com/iamkvnn/jewelry>

Android App Wordzy

Team size: 4 - Role: Team Member

2/2025 - 5/2025

Description:

- Developed an Android app for learning English with structured lessons and interactive exercises.
- Provided vocabulary topics by level, supporting listening, speaking, reading, and writing skills.
- Designed a user-friendly, intuitive interface for easy navigation.
- Integrated Firebase for user authentication and data storage.
- Applied MVVM architecture across the entire application.
- Used Git and GitHub for version control and team collaboration.
